SUMMARY

Commerce graduate with practical IT Business Analysis training, leveraging academic foundations in Management Information Systems (MIS), ERP, and CRM to bridge the gap between business objectives and technical solutions. Proficient in translating complex workflows into structured BA deliverables and defining strict business rules. Brings practical experience in stakeholder coordination, process documentation, and AI-assisted requirement analysis. Seeking a Business Analyst role to contribute to requirement clarification and the continuous improvement of technology-driven products.

CORE COMPETENCIES

Business Analysis: Requirements Elicitation, BRD & SRS Documentation, Process Modeling (BPMN, UML), Use Case Analysis, Wireframing, UAT Planning.
Data & Testing: Foundational SQL (DBeaver), Database Concepts (ERD), API Testing (Postman).
Productivity & AI Tools: ChatGPT, Gemini, Google AI Studio, Antigravity (for analysis prompt engineering), Draw.io, PlantUML, Figma, Trello.
Languages: Vietnamese (Native), English (IELTS 6.0 - no band below 6.0).

PERSONAL PROJECTS

PW - Blockchain-based Partnership Recognition Platform - Link **Mindx Technology School**
Jun 2026 - Aug 2026

Description:
A Web3 platform digitizing B2B partnership verification through Soulbound Tokens (SBT), featuring an automated gamification system and a public reputation leaderboard.
Technologies:
Draw.io, PlantUML, Google Stitch, Google AI Studio, Microsoft Office, Google Workspace.
My Contributions: *IT Business Analyst*
- Authored a 31-page Business Requirements Document (BRD) covering the business context, problem statement, stakeholder analysis, project scope, and 15 prioritized business requirements.
- Modeled As-Is and To-Be business processes using BPMN and flowcharts to illustrate the existing partnership verification process, identify business pain points, and communicate the proposed workflow.
- Specified business rules and exception-handling logic for enterprise classification (Classes 0–7), four NFT pricing tiers, reward-point allocation and 30-day locking, as well as NFT rejection/revocation and associated point adjustments.
- Documented role-based permissions and key business workflows across five user roles, including invite-only KYB onboarding, custodial-to-non-custodial wallet transfers, and Maker–Checker approval for sensitive administrative actions.
- Mapped documented user stories to screen descriptions and collaborated with the team to develop high-fidelity wireframes and system prototypes, ensuring UI/UX alignment with defined business rules.
- Presented project solutions and participated in project reviews.

Smart Parking Management System | Academic Project - Link **Mindx Technology School**
Jan 2026 - Jun 2026

Description:
Developed an end-to-end business analysis solution for a smart parking management system, focusing on digital parking reservation, vehicle management, and payment workflow optimization.

Technologies:
Draw.io, Figma, Microsoft Office, Google Workspace.
My Contributions: *IT Business Analyst*
- Defined functional and non-functional requirements.
- Produced BA deliverables including BRD, SRS, BPMN, UML diagrams, User Stories, and Wireframes.
- Designed end-to-end business processes and documented system workflows.
- Participated in solution analysis, requirement validation, and project presentations.

WORK EXPERIENCE

SSI Digital Technology Joint Stock Company (SSID) **Ho Chi Minh, Vietnam**
Human Resources Intern *Jul 2025 - Nov 2025*
- Clarified role requirements with hiring managers and recruiters to align candidate screening criteria with hiring needs.
- Reviewed 50+ candidate profiles per week against predefined criteria and maintained recruitment tracking data for operational reporting.
- Documented recruitment processes and workflows to improve information consistency and support coordination.
- Coordinated with stakeholders throughout recruitment workflows, following up on information gaps and process progress.

EDUCATION

UNIVERSITY OF ECONOMICS OF HO CHI MINH CITY **Ho Chi Minh City, Vietnam**
Bachelor of Commerce *Oct 2022 - Mar 2026*
- GPA: 3.75/ 4.0
- Relevant Coursework: Management Information Systems (MIS), Enterprise Resource Planning (ERP), Customer Relationship Management (CRM).

MindX Technology School **Ho Chi Minh City, Vietnam**
IT Business Analyst *Jan 2026 - Aug 2026*
- Completed a 8-month intensive training program simulating the full Software Development Life Cycle (SDLC) in Agile environments, focusing on requirements elicitation, process modeling, database querying, and solution design.

CERTIFICATIONS

Business Analyst Intensive Program (provided by MindX Technology School)
Introduction to SQL Querying with AI (provided by datacamp)
Intermediate SQL Querying with AI (provided by DataCamp)
IC3 Digital Literacy Global Standard (GS5)
IELTS overall 6.0 - no band under 6.0
